

New Faculty Qualification Inquiry Letter

To whom it may concern,

In response to the fees for chip manufacturing and measurement services starting from August 1, 2011, in order to encourage new faculty members, those who meet the listed qualifications can enjoy the preferential service specified as follows.

Full-time professors with less than two years of service in domestic universities and colleges can, after chip review, enjoy chip manufacturing at no charge under the condition that the annual total value does not exceed NT500000 (based on the original manufacturing cost, not the calculated 10% cost) and there is a limit of up to 7 chip manufacturing applications. They are also entitled to enjoy free chip measurement services in our laboratory.

1. Those who work as full-time professors in domestic universities and colleges
2. Those who work with accumulated experiences for no more than two years in domestic positions.

If you meet the above criteria, please provide the following proof from the office of your department/school either by email at eva@narlabs.org.tw, or fax to: (03)5679451 Ms. Chen.

NARLabs Taiwan Semiconductor Research Institute
Chip Implementation Service Division

To TSRI,

_____ University/College _____ Department/School Office provides the following list as an official proof that the professor has less than two years of teaching experience in domestic full-time teaching positions combined.

Name of the Professor	University	Term Appointment Duration Time

(Feel free to add columns if needed.)

_____ University/College
_____ Department/School Office
Date: M_____ D_____ Y_____
